*** Please note the following:**

Some statutory dates and other affected dates have been revised pursuant to P.L. 2003, c. 275, which authorizes the Commissioner to make any adjustments to the school budget calendar that may be necessary to conform with the state aid notification date that follows the Governor's State Budget Message. The dates contained herein are based on a February 22 State Budget Message and may require additional modification upon final notification by the Governor's Office of the budget message date.

**NEW JERSEY DEPARTMENT OF EDUCATION
DIVISION OF FINANCE
DATES FOR 2005 SCHOOL ELECTION PROCEDURES AND RELATED
BUDGET PROCEDURES**

TYPE II DISTRICTS INCLUDING ALL REGIONAL DISTRICTS

Any dates subsequently released by the Division of Elections, Department of Law and Public Safety concerning the provisions of Title 19 of the New Jersey Statutes which differ from those contained herein shall supersede those dates. This document is intended as an administrative convenience and does not constitute a statement of law. This document should not be relied upon as a substitute for the district's review of applicable law or consultation with counsel.

The county board of election of the county in which the election district is located shall designate two members of the district board of election to perform all the duties of the district board for that election, except that where there are electronic voting systems and more than 900 registered voters four members shall be designated.

The county board of elections shall appoint from the designees one to serve as judge and one to serve as inspector for school elections.

Upon the request of a board of education or the clerk of a municipality in the county or upon its own initiative, the county board may designate the polling place and voting equipment of one election district to serve as the polling place and voting equipment for the voters of one or more other election districts for school elections. Such a designation shall be based on the casting of no more than 500 ballots during each of the two preceding annual school elections by the voters of the election districts for which that polling place is designated. If, at two consecutive annual school elections thereafter, the number of ballots cast by the voters in those election districts is more than 500, the county board shall effect an appropriate revision of the election districts using that polling place. If a request is from a municipal clerk, the request shall apply only to the election districts in that municipality.

If one polling place is designated for two or more election districts, the county board shall designate at least two members from among the members of the district boards of election of those election districts to perform all the duties of the district board for the school election. The county board shall also appoint one of the persons so designated to serve as judge and another of those persons to serve as inspector for school elections.

The regional board of education may, in submitting to the voters the amount of money to be voted upon for the use of the regional schools of the district, identify the amount of money determined to be the constituent municipality's share. Including this information for voters would make clear to those voters the exact amount of taxes that the constituent municipality would be required to raise to support the regional school district budget.
